

LIGHTWEIGHT CAGE MAT

New From Shor-Line!

Lightweight alternative flooring provides durable, cushioned cage floor.

Benefits:

Pets will love this soft, flexible cage flooring. Flexible PVC flooring lifts the pet off the cage floor by providing a smooth, cushioned surface that is easy to clean yet comfortable to the pet.

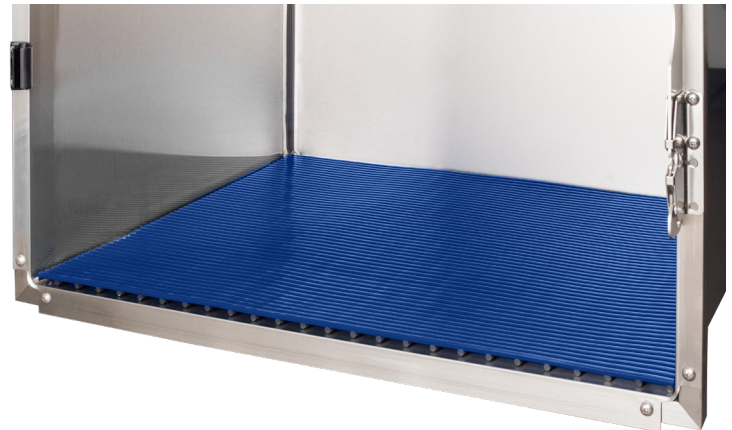

Features:

- Two-layer grid provides a sturdy floor. Sits a little more than ½” off the cage floor.
- Smooth floor texture resists fur snags, making the pet more comfortable.
- Made from 100% Virgin PVC that inhibits growth of bacteria.
- Resists most acids, alkalines and oils so it will work with common veterinary and shelter cleaning practices.
- Features excellent sound absorption properties.
- Lifts easily for cleaning and hosing down...no heavy floors to lift.
- Comes in standard blue.
- SPECS: Available to fit standard Shor-Line cage sizes. The product will arrive cut to fit the ordered size. It will rest up against the cage sides and front.
Note: all Shor-Line cages are 28¼”D.
