

BITEGUARD KENNEL PLEX DOOR

Options For Transfer Doors

Looking at adding indoor/outdoor runs? The NEW BiteGuard Kennel Plex Door allows security and free movement for dogs from inside to out.

Benefits:

Pets like choice, and letting the dog choose when to go outside saves staff time and increases dog satisfaction. When combined with a full-size transfer door, you can minimize outside access by closing the transfer door when weather or other conditions dictate. Use with or without an interior transfer door.

Features:

- Weather-sealed doors help minimize temperature shifts from pets going in and out.
- Heavy-duty anodized aluminum frame for durability.
- Clear, shatter-resistant, 3/8"-thick composite acrylic doors resist damage from sunlight, extreme temperatures and high impact.
- A 1/2"W Aluminum trim around the swinging doors
- Swinging doors allow larger dogs to exit through the middle and smaller dogs to go through one or the other.
- Stay-open hinges stay open for training and keyed lock for security.
- Doors designed to open and close quietly to minimize dog stress.
- Comes with 5-year commercial warranty that includes a warranty against dog chewing destruction.
- Other styles and sizes available

SPECS:

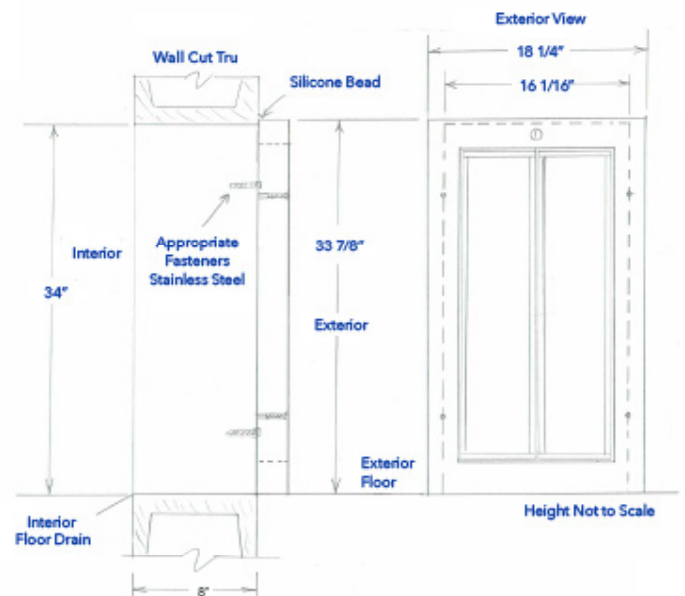

- Rough Opening 16.125" W x 24" H
Dog passage is 13.375" W x 23.375" H
- Rough Opening 16.125" W x 31.375" H
dog Passage is 13.375" W x 31.375" H

909.0002.00	16" W x 24" H	30 lbs.
909.0002.01	16" W x 32" H	32 lbs.

Fit the Kennel door to attach to desired surface. Mounting holes are not pre-drilled. You drill them to make it work best for your opening.

Exterior-Mounted Frame to Surface Installation

| Surface Mount frame is available to adapt to different surfaces.
