

STAINLESS STEEL CAGE ASSEMBLIES

Benefits:

For nearly a century Shor-Line has been making animal cages to meet veterinarians' needs. Over time we've continued to improve, evolving our cages to keep up with the demands of boarding and shelter professionals. If you're in the market for several units Shor-Line offers a variety of cage assemblies, ranging from 4' to 14' long and capable of being constructed of up to 17 units.

Features:

- Double door cages provide both a large living space and the option to insert a cage divider for more room for animals.
- Patented quiet closing polymer encased stainless steel hinges.
- Fluid-retaining lip prevents run-off from units.
- Rounded interior corners for easy cleaning.
- Tighter spacing near latches to keep paws away.
- Durable, sound-dampening latch.
